

Office Evolution® (OE) is a shared workspace – coworking environment, founded in 2003 and cultivated on the principles of 'Ohana', the Hawaiian tradition that references family working toward a common goal. Office Evolution is among the United Franchise Group family of trusted companies representing the very best in their industries. Office Evolution is serious about supporting small business owners – the Dreamers, Risk-Takers and Doers who dare to chase their passions.

The way business professionals work is changing and as a result, the coworking space has become a multi-billion-dollar industry. In fact, the global coworking space market is forecasted to grow from more than \$9B in 2023 to \$12.5B in 2025.

Office Evolution is the fastest-growing coworking franchise and fills a unique niche in the space by providing members with locations in suburban markets, business-minded clientele, a smaller footprint, mindful space layout and design, and a welcoming culture. Today, as more individuals seek safe, secure, and affordable places to conduct business outside of their homes, they are turning to modern, flexible workspaces like Office Evolution.

With over 75 locations nationwide, Office Evolution connects a robust community of likeminded and ambitious professionals.

Unlike other coworking spaces, Office Evolution office spaces are located close to home, strategically placed just outside the metro area allowing members to skip the hassle of an inner-city commute. Office Evolution provides a workspace that will grow with any

company at all stages – whether it's a virtual office to run a business remotely or a dedicated office, there is a solution for every budget. The flexible solutions include communal workspaces, private and virtual offices, as well as meeting rooms.

Additionally, Office Evolution is part of Vast Coworking Group, the largest privately owned affiliated franchise network, backed by United Franchise Group, which has been in the franchise industry for nearly 40 years.

Workspaces

- **Coworking Space** - Having an office away from home is beneficial for many remote workers and entrepreneurs. Collaborative workspaces offer a communal working area that is proven to increase motivation and foster professional networking.
- **Private Office** - Private offices include 24/7 office access and blazing-fast fiber-optic internet service.
- **Meeting Rooms** - Conference rooms and training spaces are available for rent by the hour or by the day. Conference rooms can easily seat 4-12 people, and training rooms accommodate at least 20 participants. Most rooms are equipped with whiteboards and video conferencing equipment.
- **Virtual Office** - Virtual Office membership includes a business address plus phone answering service. Membership also includes the ability to reserve a meeting room or office whenever necessary.
